## 1. Introduction

1

2 3 4	1.1. Purpose The purpose of this document is the presentation of the use cases and requirements of the application Keep Your Time.
5 6 7	All the functionalities will be identified with recourse to the definition of use cases and requirements that intend to reflect the way the application should be used and how the system should perform.
8	1.2. Vision of the Solution  The application to be developed will be composed in the first release of one component:
10	Desktop: for task time management;
11 12 13 14	The application will allow the users to manage their time in a structured way allowing task identification both of the ongoing one or in case of idle time detection decide whether to add the time to the current task or ignore the time. Furthermore the application will provide a history of performed tasks.
15 16	The application will be developed using .NET platform and C#. The desktop component will have the functional interface where the user can add tasks easily and view the tasks historical.
17	1.3. Major Features
18	FE-1: Adding, editing and deleting tasks;
19	FE-2: Inactivity alerts during task;
20	FE-3: Registering and timing individual tasks;
21	FE-4: Exporting the application data;
22	1.4. Assumptions and Dependencies
23	AS-1: The computer will have a Windows OS with at least the Vista version;
24	AS-2: The computer will have framework .Net 4.5;
25	
26	This application doesn't have any dependencies with external software;

#### 2. Use Cases Model

In this section the identification and description of the actors related to the application and the different use cases will be presented. These actors and use cases can be seen in the use case diagram show in Figure 1.

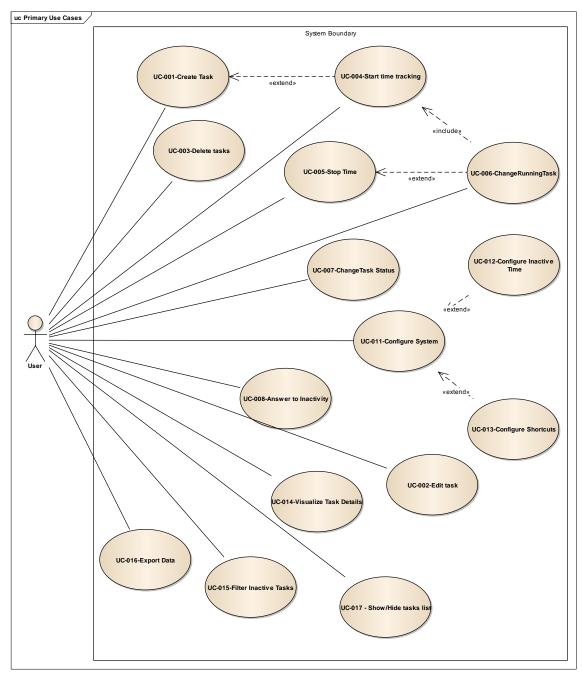

Figure 1: Use Case Diagram

The use cases UC-009 and UC-010 don't exists in the diagram because they are in the deprecated state.

33 34

38	Z.1. Actors
39	<u>User</u> : The user with full access to the application and its features.
40	2.2. Use Cases
41	2.2.1.UC-001-Create Task
42	The user creates a new task. The user inserts the name for the task and selects the option
43	of creating and starting the task. The task is created in the database, added to the tasks list
44	and the timer starts.
45	[MKU001: Main Window; MKU001.1: Main Window (status)]
46	Basic Path
47	Creates and starts the task:
48	<sup>1</sup> The user inserts the task name and selects the option to create the task. <sup>2</sup> The user
49	inserts the task name and starts the task. <sup>3</sup> The system inserts the task in the database and
50	adds the task to the tasks list [Invokes: UC-004-Start time tracking].
51	Exceptions
52	(at $^3$ )
53	An error occurs when inserting the data in the database. The application returns an error
54	message.

55 56 57	<b>2.2.2.UC-002-Edit task</b> The user selects a task to edit. The edition form is presented to the user that makes the alterations and saves the changes.
58	[MKU003: Edit Task]
59	Basic Path
60	Editing Task:
61 62 63	<sup>1</sup> The user click in the edit button to edit a task. <sup>2</sup> The system presents the edition form to the user. <sup>3</sup> The user makes the changes and saves them. <sup>4</sup> The system updates the information in the database and the tasks list.
64	Alternate Paths
65	Editing tasks:
66 67 68 69	<sup>1</sup> The user click in the details button to view the task's information. <sup>2</sup> The system presents the details form. <sup>3</sup> The user click in the edit button to edit the task. <sup>4</sup> The system presents the edition form to the user. <sup>5</sup> The user makes the changes and saves them. <sup>6</sup> The system updates the information in the database and the tasks list.
70	Cancel Edition:
71 72	(at <sup>3</sup> ) <sup>4</sup> The user cancels the edition. <sup>5</sup> The system closes the edition form.
73	Exceptions
74 75 76	(at $^4$ ) An error occurs when inserting the data in the database. The application returns an error message.
77	<u>Pre-condition</u>
78	Existence of tasks
79	

80	2.2.3.UC-003-Delete task
81	The user selects one task and selects the remove button. The task is removed from the
82	tasks list and all the information related to the task is removed from the database.
83	[MKU001: Main Window]
84	Basic Path
85	Delete task:
86 87 88	<sup>1</sup> The user click in the delete button to delete a task. <sup>2</sup> The system presents a message to confirm the operation. <sup>3</sup> The user accepts the operation. <sup>4</sup> The system deletes the task from the database and updates the tasks list.
89	Alternate Path
90	Cancel deleting:
91	(at <sup>3</sup> )
92	<sup>1</sup> The user doesn't accept the operation. <sup>2</sup> The system cancels the operation.
93	Exceptions
94	(at <sup>2</sup> )
95	An error occurs when accessing the database. An error message is presented to the user.
96	<u>Pre-condition</u>
97	Existence of tasks
98	Open the tasks list
99 100 101	2.2.4. UC-004-Start time tracking  The user chooses a task and starts the time tracking. The system starts counting the time and presents a timer to the user.
102	[MKU001: Main Window; MKU001.1: Main Window (status)]
103	Basic Path
104	Starting Time:
105	<sup>1</sup> The user selects an active task and starts the time. <sup>2</sup> The system starts the timer.
106	<u>Pre-condition</u>
107	Existence of tasks

108	2.2.5. UC-005-Stop Time
109	The user stops the time. The system stops the time and updates the information of the
110	task.
111	[MKU001: Main Window; MKU001.1: Main Window (status)]
112	Basic Path
113	Stopping Time:
114	<sup>1</sup> The user stops the time. <sup>2</sup> The system stops the timer and updates the task information.
115	Exceptions
116	(at <sup>2</sup> )
117	<sup>3</sup> An error occurs while accessing the database. <sup>4</sup> An error message must be presented to
118	the user.
119	<u>Pre-condition</u>
120	There must be a task running.

#### 2.2.6. UC-006-ChangeRunningTask 121 The user uses a shortcut to change the running task. 122 123 **Basic Path** 124 Existing running task: <sup>1</sup> The system is tracking the time of a running task. <sup>2</sup> The user uses a pre-defined shortcut 125 126 to start timing a task. 3 The system stops the time of the current running task and updates the task information. The system selects the task assigned to the shortcut the user 127 128 pressed and starts the timer. 129 **Alternate Paths** 130 No running task: (at 1) 131 <sup>2</sup>The user presses a pre-defined shortcut to start a task. <sup>3</sup> The system selects the task and 132 133 starts the timer. 134 **Exceptions** (at <sup>3</sup>) 135 An error occurs while accessing the database. An error message must be presented to the 136 137 user. 138 **Pre-condition** 139 There must be more than one active task 140 There must be a match between the active tasks and the used shortcut 2.2.7. UC-007-ChangeTask Status 141 142 The user selects a task from the list and selects the option to change the task status 143 between Active and Inactive 144 [MKU001: Main Window] 145 **Basic Path** 146 Activate Task: 147 <sup>1</sup> The user selects the task to change the status and selects Activate/Inactivate. <sup>2</sup> The 148 system changes the status of the task and updates the database information.

149	<u>Exceptions</u>
150	(at <sup>2</sup> )
151	An error occurs when updating the information in the database. The application returns an
152	error message to the user.
153	<u>Pre-condition</u>
154	Existence of tasks
155	2.2.8.UC-008-Answer to Inactivity
156	The system must detect inactivity times according with the system configuration and
157	prompt the user for a response.
158	[MKU004: Configurations; MKU005: Alert Inactivity]
159	Basic Path
160	Adding time:
161	<sup>1</sup> The system detects an inactivity time. The system stops the timer and prompts the user
162	for an action. <sup>2</sup> The user adds the time to the running task. <sup>3</sup> The system adds the time to
163	the running task. <sup>4</sup> The system presents the main window and updates de information in
164	the database.
165	Alternate Paths
166	Ignore time:
167	(at $^1$ )
168	<sup>2</sup> The user ignores the time. <sup>3</sup> The system ignores the time.
169	Exceptions
170	(at <sup>3</sup> )
171	An error occurs when updating the information in the database. The application returns an
172	error message to the user.
173	<u>Pre-condition</u>
174	There must be a task running.
175	The user hasn't interaction with the system during the defined time.

176	2.2.9.UC-011-Configure System
177	The user changes the system configurations.
178	[MKU004: Configurations]
179	Basic Path
180	Configure:
181 182 183	<sup>1</sup> The user opens a configuration window. <sup>2</sup> The system presents the configuration window. <sup>3</sup> The user changes the definitions and saves. <sup>4</sup> The system saves the changes and applies the changes to the system.
184	Alternate Paths
185	Cancel Edition:
186 187	(at <sup>3</sup> ) <sup>4</sup> The user closes the window without saving.
188	<u>Exceptions</u>
189 190 191	(at $^4$ ) An error occurs while accessing the database. An error message must be presented to the user.
192	2.2.10. UC-012-Configure Inactive Time
193 194	The user accesses the configurations page and activates the configuration system and sets the inactivity time to a value between 1 and 60 minutes.
195	[MKU004: Configurations]
196	Basic Path
197	Activate Inactivity:
198 199 200	<sup>1</sup> The user accesses the configuration page and activates the inactivity alert. <sup>2</sup> The system activates the configuration of inactivity time. <sup>3</sup> The user inserts a time between 1 and 60 minutes. <sup>4</sup> The system updates the information in the database and puts the new
201	configuration in effect.

202	Alternate Paths
203	Deactivate inactivity time:
204 205 206 207	(at ¹)  ² The user accesses the configuration page and deactivates the inactivity alert. ³ The system blocks the configuration of inactivity time. ⁴ Updates the database information and puts the new configurations in effect.
208	<u>Exceptions</u>
209 210 211	(at $^4$ ) An error occurs while accessing the database. An error message must be presented to the user.
212 213 214	<b>2.2.11. UC-013-Configure Shortcuts</b> The user accesses the configuration page and defines shortcuts for changing between five chosen tasks
215	[MKU004: Configurations]
216	Basic Path
217	Configure Shortcuts:
218 219 220	<sup>1</sup> The user accesses the configurations page and defines the shortcuts by defining the shortcuts and the corresponding task. <sup>2</sup> The system updates the information in the database and applies the new definitions.
221	<u>Exceptions</u>
222	(at <sup>2</sup> )
223	If the user duplicates a task or the shortcuts, the system presents an error message.
224 225 226	(at $^{2}$ ) An error occurs while accessing the database. An error message must be presented to the user.
227	Pre-condition
228	Existence of active tasks

229 230	2.2.12. UC-014-Visualize Task Details  The user chooses a task to view the details.
231	[MKU002: Task Details]
232	Basic Path
233 234	$^{\scriptsize 1}$ The user clicks in the details button to view the task details. $^{\scriptsize 2}$ The system presents the task details.
235	Alternate Path
236	<sup>1</sup> The user expands the tasks list. (at <sup>1</sup> )
237	<u>Exceptions</u>
238 239 240 241	(at <sup>2</sup> ) An error occurs while accessing the database. An error message must be presented to the user.
242	Pre-condition
243	Existence of tasks
244 245	2.2.13. UC-015-Filter Inactive Tasks The user activates/deactivates a filter in order to see or hide the inactive tasks.
246	[MKU001: Main Window]
247	Basic Path
248	Present tasks list:
249 250	<sup>1</sup> The system presents a list of all the tasks to the user. <sup>2</sup> The user selects the option to hide the inactive tasks. <sup>3</sup> The system filters the task list and only shows the active tasks.
251 252 253	<b>2.2.14. UC-016-Export Data</b> The user selects the option corresponding to the settings. In the section settings then selects the functionality of all exporting data.
254	[MKU004: Configurations]
255	Basic Path
256 257 258	<sup>1</sup> The user selects the settings functionality. <sup>2</sup> The system redirects the user to the settings form where an option for exporting data is available. <sup>3</sup> The user selects the export option. <sup>4</sup> The user chooses the path to save the exported file. <sup>5</sup> The system exports all data.

259	<u>Exceptions</u>
260	(at <sup>4</sup> )
261	The system doesn't have writing permissions in the destination folder or an error occurs
262	when accessing the database. The system presents an error message to the user.
263	<u>Pre-condition</u>
264	Existence of tasks
265	2.2.15. UC-017 - Show/Hide tasks list
266	User presses a button to show or hide the tasks list.
267	[MKU001: Main Window]
268	Basic Path
269	Show Tasks List:
270	<sup>1</sup> The system presents a minimal view without the tasks list. <sup>2</sup> The user presses a button to
271	expand the window and view the task list. <sup>3</sup> The system expands the window and presents
272	the complete task list.
273	Alternate Paths
274	Hide Tasks List:
275	(at <sup>1</sup> )
276	<sup>2</sup> The system presents a view with the tasks list. <sup>3</sup> The user presses a button to hide the tasks
277	list. <sup>4</sup> The system minimizes the window and stops showing the tasks list.

278

# 3. Functional Requirements

279 280		reives a task name from a text box. This text box allows auto complete.
281	<u>Priority</u> :	High
282	<u>Difficulty</u> :	High
283 284	3.2. The system val	1CT-002:Task.create.validate idates the task name.
285	<u>Priority</u> :	High
286	<u>Difficulty</u> :	Low
287 288 289	3.3. The system say started.	1CT-003:Task.create.validate.notEqual yes the task name in the database with an ID, name and initial date. The task is
290	<u>Priority</u> :	High
291	<u>Difficulty</u> :	Low
292 293 294 295	presents a set	1CT-004:Task.create.AutoComplete alyzes the text box. When the user enters three or more characters, the system of suggested active tasks in a drop down list. The suggested task name start with inserted by the user.
296	<u>Priority</u> :	High
297	<u>Difficulty</u> :	Medium
298 299 300		<b>2ET-001: EditTask</b> ows the edition of the fields name and description. The system allows insert, lete of individual times of a task.
301	<u>Priority</u> :	Medium
302	<u>Difficulty</u> :	Medium

303	3.6.	2ET-002: EditTask.save
304	The system val	idates the name and times between start date and end date
305	<u>Priority</u> :	Medium
306	<u>Difficulty</u> :	Medium
307	3.7.	2ET-003: EditTask.save.true
308		odates the task name in the database with the name, start and end date of
309	individual time	s and description of a task
310	<u>Priority</u> :	Medium
311	<u>Difficulty</u> :	Medium
312	3.8.	2ET-004:EditTask.save.false
313	In each field, th	ne system presents an error message "Invalid field!" and the reason.
314	<u>Priority</u> :	Medium
315	<u>Difficulty</u> :	Medium
316 317 318	•	3DT-001: DeleteTask eletes the selected task and updates the database. The system should ask for efore deleting the task. The system only allows to delete tasks stopped.
319	<u>Priority</u> :	Medium
320	<u>Difficulty</u> :	Low
321 322 323		<b>4STT-001: StartTime</b> ops the current task if there is one and starts counting the time for the selected
324	<u>Priority</u> :	High
325	<u>Difficulty</u> :	Medium
326 327		<b>5ST-001: StopTime</b> ups the time and updates the information of the task and saves it in database.
328	<u>Priority</u> :	High
329	<u>Difficulty</u> :	Medium

330 331 332	The system allo	<b>6CT-001: ChangeRunningTask</b> ows the change of the running task through a combination keys or stopping the d starting another.
333	<u>Priority</u> :	High
334	<u>Difficulty</u> :	High
335 336		6CT-002: ChangeRunningTask.CombinationFail ys a beep if the pressed shortcut isn't associated with a task.
337	<u>Priority</u> :	High
338	<u>Difficulty</u> :	High
339 340 341		6CT-003: ChangeRunningTask.Success started the system presents a brief popup to the user that disappears without on.
342	<b>Priority</b> :	High
343	<u>Difficulty</u> :	High
344 345 346	The system loa	7CT-001: ChangeTask Status ads all tasks from database and allows selecting them for change of status. It to change the status of running tasks.
347	Priority:	Medium
348	<u>Difficulty</u> :	Low
349 350 351 352	The system ver	8AI-001: Inactivity  ifies the user's inactivity for a period of time through the last keyboard and  The system stops the time and saves this time in database. The system starts
353	Priority:	High
354	<u>Difficulty</u> :	High

355	3.17.	8AI-002: Inactivity.Notify
356	The system blo	ocks the screen and asks the user what he wants to do. The user chooses to
357	ignore the time	e or add the time to the running task.
358	<u>Priority</u> :	High
359	<u>Difficulty</u> :	Medium
360	3.18.	8AI-003: Inactivity.Notify.Adds
361	The system sav	es the inactivity time in database and adds this time to the running task.
362	<u>Priority</u> :	High
363	<u>Difficulty</u> :	Medium
364	3.19.	8AI-003: Inactivity.Notify.Ignores
365	The system ign	ores the time until last activity and starts a new time to the current task.
366	<u>Priority</u> :	Medium
367	<u>Difficulty</u> :	Low
368 369		12CIT-001: ConfigureInactiveTime eives a duration for the inactivity time if the user activated the inactivity alert.
370	<u>Priority</u> :	Medium
371	<u>Difficulty</u> :	Low
372 373		12CIT-002: ConfigureInativeTime.Validate idates the inactive time field.
374	<u>Priority</u> :	Medium
375	<u>Difficulty</u> :	Low
376 377		12CIT-003: ConfigureInactiveTime.Validate.False sents a message with the reason it failed the validation.
378	<u>Priority</u> :	Medium
379	<u>Difficulty</u> :	Low

380 381		ves the inactivity time in the database.
382	<u>Priority</u> :	Medium
383	<u>Difficulty</u> :	Low
384	3.24.	13CS-001: ConfigureShortcuts
385	The system all	ows the user to associate five active tasks with keyboard shortcuts. The user
386	selects an exist	ing active task and a combination of keys to define the shortcut.
387	<u>Priority</u> :	Medium
388	<u>Difficulty</u> :	Low
389	3.25.	13CS-002: ConfigureShortcuts.Validate
390	The system val	lidates the entered choices. The system verifies if a shortcut was entered and a
391	task chosen. It	also verifies the existence of duplicated shortcuts or tasks.
392	<u>Priority</u> :	Medium
393	<u>Difficulty</u> :	Low
394	3.26.	13CS-003: ConfigureShortcuts.Validate.True
395	The system sav	ves the information into database: task name and shortcuts.
396	<u>Priority</u> :	Medium
397	<u>Difficulty</u> :	Low
398	3.27.	13CS-004: ConfigureShortcuts.Validate.False
399	The system pre	esents message with the reason it failed the validation.
400	<u>Priority</u> :	Medium
401	<u>Difficulty</u> :	Low
402	3.28.	14VTD-001: TaskDetails
403	The system loa	ds the selected task information from the database and presents the task name,
404	-	d the individual times list with start date, end date and time spent.
405	<u>Priority</u> :	High
406	<u>Difficulty</u> :	Medium

407	3.29.	14VTD-002: TaskDetails.Calculate
408	The system cal	culates the time spent for each individual time entry.
409	<u>Priority</u> :	High
410	<u>Difficulty</u> :	Medium
411	3.30.	15FIT-001: FilterTask
412	The system allo	ows the filtering of the inactive tasks and only presents the active tasks.
413	<u>Priority</u> :	High
414	<u>Difficulty</u> :	Medium
415	3.31.	15FIT-002: FilterTask.ShowAll
416		oups the active tasks and inactive tasks in different groups.
417	Priority:	High
	<u></u>	
418	<u>Difficulty</u> :	підії
419	3.32	16ED-001: ExportData
420		ows the user to choose the path to save the exported file.
421	<u>Priority</u> :	Medium
422	<u>Difficulty</u> :	Medium
423	3.33.	16ED-002: ExportData.Export
424		ids all the data to be exported from the database. The data is exported to a .csv
425	file.	
426	<u>Priority</u> :	Medium
427	<u>Difficulty</u> :	Medium
428	3.34.	17TL-001: TaskList
429	The system all	ows the show/hide of the task list. This list can be sorted by name, total time
430	spent time of c	lay or stop date.
431	<u>Priority</u> :	High
432	Difficulty:	Medium

433 434		ts the tasks by descending order of stop date.
435	Priority:	High
436	Difficulty:	Medium
437	3.36.	17TL-003: TaskList.DefaultSort.CurrentTask
438	The system sho	ows at the top of the list the current task followed by the others.
439	<u>Priority</u> :	High
440	<u>Difficulty</u> :	Medium
441	3.37.	17TL-004: TaskList.Sort
442 443	•	ts the tasks by name, total time, spent time of day or stop date. Even if a task is assume the sorted position.
444	<u>Priority</u> :	High
445	<u>Difficulty</u> :	Low
446	3.38.	17TL-005: TaskList.TotalTime
447	The system pre	esents the total time for each task in the format hh:mm.
448	<u>Priority</u> :	High
449	<u>Difficulty</u> :	Low
450	3.39.	17TL-006: TaskList.Today
451		esents the today time for each task in the format hh:mm. If a task doesn't have
452	time registered	d in the current day the today time should present 00:00.
453	<u>Priority</u> :	High
454	<b>Difficulty</b> :	Low
455	3.40.	17TL-007: TaskList.StopDate
456 457		esents the stop date for each task in date format. If the task was performed in y, it is presented in the format hh:mm (last stop of day).
458	<u>Priority</u> :	High
459	<u>Difficulty</u> :	Low

460	3.41.	17TL-008: TaskList.Actions	
461	The system allows for each task a set of actions so the user can view the details, start/sto		
462	delete tasks an	d activate or inactivate them.	
463	<u>Priority</u> :	High	
464	<u>Difficulty</u> :	High	
465	4. Inter	face Requirements	
466	4.1.	UI-001: MainWindow	
467		ows minimal view with a textbox to insert the task name, a button to start/stop	
468	•	sk, a timer, a button to view the task details, a button to edit the task, a button	
469	to show the co	nfigurations form, a button to hide/show the tasks list and a button to close the	
470	application.		
471	<u>Priority</u> :	Medium	
472	<u>Difficulty</u> :	Medium	
473	4.2.	UI-002: Buttons that are always active	
474		show configurations, to hide/show tasks list and the button to close the	
475	application are		
476	<u>Priority</u> :	Medium	
477	<u>Difficulty</u> :	Medium	
478	4.3.	UI-003: Expand list button	
479		cs list isn't expanded, the expand button should show the symbol of a down	
480		ne tasks list is expanded it should show an up arrow.	
481	<u>Priority</u> :	Medium	
482	<u>Difficulty</u> :	Medium	
483	4.4.	UI-004: TextBox filled with a new task name	
484	The system act	ivates the button to add task.	
485	<u>Priority</u> :	Medium	
486	<u>Difficulty</u> :	Medium	

487	4.5.	UI-005: TextBox filled with Existence task name
488	The system en	nables the start, edit and view details buttons. If the Enter key is pressed the
489	•	s the start button to stop button.
490	<u>Priority</u> :	Medium
491	<u>Difficulty</u> :	Medium
492	4.6.	UI-006: TextBox with running task
493 494	•	anges the start/add button to the stop button, view details button and it starts button is disabled.
495	<u>Priority</u> :	Medium
496	<u>Difficulty</u> :	Medium
497		UI-007: Clicking in view details button
498	The system pre	esents a form with the details of the task and an edit button.
499	<u>Priority</u> :	Medium
500	<u>Difficulty</u> :	Medium
501	4.8.	UI-008: Clicking in edit button
502	The edition mu	ist be inline. In times table, each line has a button to delete that line.
503	<u>Priority</u> :	Medium
504	<u>Difficulty</u> :	Medium
505	4.9.	UI-009: Clicking in configuration button
506	The system pre	esents a form with:
507	<ul><li>an exp</li></ul>	ort button;
508	<ul><li>a chec</li></ul>	kbox to check/uncheck inactivity alerts and a textbox to define the inactivity
509	time. T	his text box is enable only if the inactivity alert is checked;
510	<ul><li>five lin</li></ul>	es for shortcuts definition with the following composition:
511	0	one combo box for selecting an existing task;
512	0	three checkboxes for check/uncheck the control keys ctrl, alt, shift;
513 514	0	one textbox for and additional key.
514	<u>Priority</u> :	Medium
516	<u>Difficulty</u> :	Medium

517	4.10.	UI-UIU: Visual distinction between active and inactive
518	tasks	
519	The system should differentiate visually the active from inactive tasks	
520	<u>Priority</u> :	Medium
521	<u>Difficulty</u> :	Medium
522	4.11.	UI-011: Modal Window
523	Always that the	e user open a form, the system doesn't allow any actions on the previous form.
524	<u>Priority</u> :	Medium
525	<b>Difficulty</b> :	Medium
526		
527	5. Perfe	ormance Requirements
528	5.1.	PR-001: Startup of the application
529		the application shouldn't last longer than 15 seconds.
530	<u>Priority</u> :	Medium
531	<u>Difficulty</u> :	Low
532	5.2.	PR-002: Transition time
533	_	between forms, when the total number of tasks doesn't exceed 100, shouldn't
534	last longer than 10 seconds.	
535	<u>Priority</u> :	Medium
536	Difficulty:	Low

# **Appendix A: Data Dictionary**

537538

<b>Term</b> Description	<b>Definition</b> The field description accepts until 500 characters and accepts special characters.
End date	The field end date is of datetime type with the format dd-mm-yyyy hh:mm.
Inactive time	The inactive time field must be an integer number between 1 and 60.
Name	The field name accepts until 50 characters and special characters. The name is unique.
Start date	The field start date is of datetime type with the format dd-mm-yyyy hh:mm.
Status	A task has two status, active or inactive.
Time spent	The time spent field is calculated and should be presented with the following format hh:mm.
Total time	The total time field is calculated and should be presented with the following format hh:mm.
Inactive Task	Tasks which the user doesn't need them. These tasks aren't presented in default task list neither in the shortcuts configuration. These tasks aren't also presented in autocomplete functionality.
Active Task	Tasks that are presented in default task list and in the shortcuts configuration. These tasks are also presented in autocomplete functionality.
